# Our Features

## Features

Edara (ERP) system comes with numerous features that make it a great choice for businesses of all sizes.

### Live Chat Support

Reach out and talk to our support team in no time. We provide reliable customer support when you need help.

### Flexibility

Because Edara ERP is an open source system, it is device agnostic. It can be accessed from any OS: Windows, Linux, Android and IOS.

### Business Agility

Applications based on the clouds are "evergreen" so you have your entire company will always be on the latest version.

### Security

The cloud infrastructure implements a number of technologies and processes to keep customer data secure through encrypted communications, as well as threat management and migration practices.

### Economics

You'll benefit from cost savings as a result of operational efficiency improvements. And with subscription pricing, you pay only for what you are using. Scale apps up or out as needed.

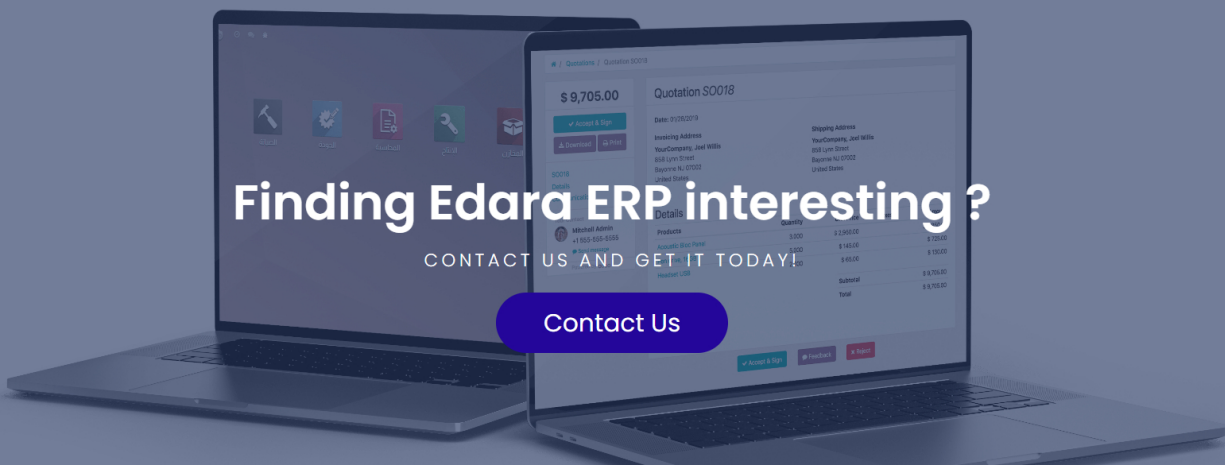

### Scalability

The faster your business expands, the more critical it becomes to have Edara cloud ERP solution. It can scale up or down quickly to match your business demands while maintaining a 99.95% uptime. Edara shapes the growth of your business by maximizing productivity and streamlining operations.
